

```
/* ICOM BANDES DECODEUR pour IC7300 et IC756pro3
programme original par 5B4WN , revue, adaptÃ©, rÃ©alisÃ© par F6EIT
pour FILTRE PASSE-BAS 7 positions : 160 , 80 , 40 , 30-20 ,
17-15 , 12-10 , 6
```

Signal BAND de l'ICOM varie suivant la bande choisie entre  
0 volts et + 8 volts  
L'Arduino supporte un signal maxi de + 5 volts en entrÃ©e

DONC

NE PAS OUBLIER LE DIVISEUR D'ENTREE 6 Kohms, 10 Kohms

Les valeurs de tensions ont Ã©tÃ© calculÃ©es avec ce diviseur 1%

\*/
